

Dear comrades,

the party "Communists People's Left-Communist Party" warmly greets the 19th Congress of the Communist Party of Greece.

Your Congress is taking place in a difficult moment for the workers' movement, when the crisis of capitalism, as the result of its fundamental contradiction between the social character of production and the private appropriation of the product, is sharpening in the form of a general crisis of overproduction and capital overaccumulation, that throws millions of people into poverty.

The aggressiveness of imperialism and the toughening competition among new and old imperialist countries for the control of resources, markets and routes of communication are increasing the frequency of military aggressions and the risk of war.

Authoritarianism, repression and espionage of the private and social life of people are also growing into the negation of even the formal freedoms of bourgeois democracy.

No "humanization", or "technical correction" of capitalism are able to stop these processes and the worsening of the workers' and poor strata life. Capitalism cannot be improved, but must be overthrown by a new social block, composed by the workers' class and some petty-bourgeois strata, proletarianized by the capitalist crisis. A larger effort to attract them into the alliance with the workers' class is to be carried out. While Communists should do their best to widen and strengthen the social alliances of the workers' class, we think that in Europe in today's conditions, no political coalitions with bourgeois, social democratic or other "left" parties are possible, as they accept capitalism, its regulations, its bodies, like the EU and NATO, and do not pursue the task of overthrowing it.

In the current conditions, the way to socialism passes through the withdrawal of our countries from the EU, NATO and other bodies, through which European imperialism implements the exploitation and the plunder of workers and peoples.

This situation requires Communists to achieve high organization and militancy level, firm ideologic and politic conviction and preparedness in order to be able to counterattack and lead the workers' class and its allies to the Socialist proletarian revolution, that is the only final way out from the crisis.

Your correctness of analysis, your clearness of goals indication, your effective political practice among the working masses, your political coherence, your commitment to Marxism-Leninism and scientific socialism commitment, make the KKE an example for the whole Communist movement.

Dear comrades,

by wishing all of you and your Congress a fruitful and successful work, we reconfirm our brotherly solidarity with your Party and all Greek communists. We are sure that this 19th Congress will bring new weapons and new impulse to our common struggle against imperialism, for socialism-communism.

Long live the proletarian internationalism!

Long live the proletarian Socialist revolution!

Long live Marxism-Leninism!

Ζήτω το Κομμουνιστικό Κόμμα Ελλάδας!
