

The Communist Party of Swaziland salutes KKE on the occasion of its 19th congress. We extend our solidarity with you, in particular at this time of ordeal for the left to maintain a consistently anti-capitalist and anti-imperialist revolutionary, in the face of myriad efforts for communists to water down their positions.

Your struggle against the machinations of the EU to make the working people of Europe pay for the capitalist crisis, is immensely important not only to the workers and the poor within Europe's borders, but to the entire working class worldwide.

In Swaziland, our struggle is chiefly directed at removing the absolute monarchy, ending the prohibition on political parties and paving the way towards democracy. And in this struggle we are confident that we can count on the solidarity of Greece's communists, because we know that their anti-imperialism is real, and not just a pretence. Our struggles are indivisible.

Viva KKE  
Viva anti-imperialism  
Viva socialism
