

Sveriges Kommunistiska Parti

From the Communist Party of Sweden (SKP)

To the Communist Party of Greece (KKE)

Dear comrades of the KKE,

We apologize for the lateness of our greeting regarding your 19th Congress. We are in the finishing stages in preparations of our own congress and that has had our undivided attention.

First of all we want to point that we have read your party's theses and we recognize the ideological strength of the KKE. To produce a document with such quality is impressive. It does not only describe the situation in Greece and the region but it clearly shows the class nature of the EU and the threat of a great imperialistic war that appears to be brewing. Such a document is not only in the service of Greek working class, it is also a mighty tool for the rest of us.

Second we recognize KKE's position in the international community among the communist parties and we share its views regarding the need to strengthen our bonds and to combat the revisionists among us.

And last, we want you to know that we are staunch supporters of your party and that we have worked hard to quell all slanderous talk about KKE's "sectarian" views. We have transmitted various radio shows, held rallies, written and translated various articles describing elegantly the lies of the opportunistic left.

We also want to take the time to express our gratitude for the help that we have received in the past and the help that you give us now and then, something that we consider invaluable.

Comradely yours

Victor Diaz de Filippi
