Göteborg April 8, 2013

*To the Central Committée of the Communist Party of Greece (KKE)*

*Dear comrades,*

on the occasion of Your 19th congress we communists from Communist Party, Sweden, convey our best greetings to your members and leadership.

KKE is a party that uphold communist ideals and we admire KKE:s important role in Greek class struggles in confrontation against the dictates of the so called "troika" who is imposing financial dictatorship over the Greek people and nation.

We notice KKE:s commitment to proletarian internationalism and the party's standpoint against different forms of opportunism.

Our party is very active also in international issues. Last year our members and supporters raised 25000 euro to the striking steelworkers at Elliniki Halivurjia in support, and as a part of our international duty.

We wish you all successes in your congress proceedings.

Down with capitalism! For socialism!  
Down with imperialistic organisations like Nato and EU!  
Long live Greek communists!

Comradely greetings

*Anders Carlsson – Chairman  
Erik Anderson – International secretary  
Patrik Paulov – International editor of paper Proletären*
