**Message of solidarity from the Swiss Labour Party
for the XIXth Congress of the KKE**

Dear comrades,

The Swiss Labour Party greets your XIXth Congress and wishes you fruitful deliberations. We follow carefully the social, economical and political changes in Greece and greet the fight of the greek people, of the left and of the progressist forces against the policies of austerity, privatizations and social regression imposed by the Troika and implemented by Greek bourgeois parties, fight that is even more remarkable considered that it takes place in difficult conditions, confronted to police repression, orchestrated by the bourgeoisie, and to the rise of neonazism. Greece is nowadays the most blatant illustration of the strategy of ruling circles of the European Union to make the peoples to pay for the systemic crisis of capitalism. The fight of the Greek people against these policies of reaction on the whole line orchestrated by the big monopolist bourgeoisie, the fight of the KKE and left forces for socialism, has a fundamental importance for all the peoples of the world, and we will carefully follow your deliberations.

We send you, dear comrades, our fraternal and internationalist greetings.
